UNIQUE DECORATION METHODS

Stain Imaging

A monochromatic image based, wash-like / dye-like all over printing alternative to traditional allover decorating methods. Stain Imaging is a wholly unique resource for transforming basic cotton tees into fully customized substrates. Finished garments are soft and can be screen printed right on top, receive heat press, and even DTG. The technique is quite eco-friendly.

NFC (Near Field Communication) Technology

- **What is it?** Wireless data transfer that allows a user to access information by simply tapping an NFC enabled device over our product. Pictures, Video, audio files, Geo location and many more options become instantly available through a link enabled on the NFC product.
- **What's required?** Unlike QR Codes, you do not have to download an app to use NFC1. All you have to do is make sure that the NFC feature is turned on in your mobile phone. NFC functionality is not available on older models.
- **Imprints with NFC:** The NFC tags can currently be embedded in an indented dome as well as under any patched branding solutions. Minimum dome or patch size required to be able to embed an NFC tag: 1.5"x1.5"

Brandpatch: Custom Shape with Laser Touch or Full Color
